

What's New in Latest Release

Companies House Data Check

- Added new detailed data check facility that will check/import members, directors and secretaries details (detailed data check requires the optional eFiling module)
- Improved functionality

Limited Liability Partnerships

- Added ability to record details of Limited Liability Partnerships (LLPs) and produce key LLP Companies House forms

Filing Action Reminders

- A new log has been created that records Companies House filing action reminders arising from data entry/import

eFiling using the new Companies House XML eFiling system

- Implementation of the new Companies House eFiling system that uses secure XML communication as opposed to email messages to communicate with Companies House

Mailmerge members

- Added option to include shareholder balances

Dividend Warrants / Tax Vouchers

- New option to print annual summary dividend warrants/tax vouchers for a tax year
- Improved layout of tax vouchers

Printed Annual Return Form 363a - bulk shareholder list

- When printing the return and selecting "In Another Format", now have option of producing a bulk shareholder list on disk in a .txt file

Printed Annual Return / Past & Present Members list

- Significant performance improvement in time taken to produce report for companies with a large number of members/transactions

Outgoing emails

- Added ability to send ad-hoc emails by specifying SMTP server settings as well as by MAPI

Other

Various cosmetic/user interface improvements
